1. The General Staff of the Yugoslav Fourth Army in Ljubljana issued a top secret order No. 1079/49 (date unknown) to all commanders of the KNOJ border sectors along the Yugoslav-Italian border, on border control and prevention of every illegal traffic over the border from Italy to Yugoslavia, and vice versa. The order lists and describes clearly a large number of channels used for illegal traffic.
2. The order further emphasises that entry and exit of American and British agents must be prevented under any cost. All such agents who are caught entering, must be liquidated, after all information has been obtained from them. It further emphasises that agents of these two powers are the greatest enemies of Communism, and that the current political attitude of the FNRJ Government should not have any influence on the commanders of the KNOJ border sectors.
